NOVEMBER 2025

By **BILL MUIR**

Dear Members,

Welcome back to all our friends returning from the north! We are thrilled to have you back in our sunny and warmer weather for the winter season. It's always a joy to see familiar faces and share our love for fishing together.

Thankfully we did not have any hurricanes that impacted us this year as we are getting back to our normal lives in our fish paradise.

On another happy note, the Elk's Club, where we will have our socials for the winter months, is back open with a new and much improved tiki bar for our enjoyment. We will be meeting under the tiki for our fishing club social from 5-7 PM every Wednesday.

With the end of the year coming, your **annual dues** expire December 31, 2024. To renew your dues, please send a check for \$30 to the PGICA made out to the PGICA Fishing Club. Or you can bring cash or a check to our next meeting in November.

There will be no meeting in December.

We only have a partial slate for the Board of Directors. These include the following:

President	OPEN	Vice President	OPEN
Secretary	OPEN	Treasurer	Lisa Ross
Membership	Tim Locke	Advertising	Fred De Mella
Fishing Events	OPEN	Social	OPEN
Records Keeper	Paul Whiting	Editor	Jim Kunard
Website	Richard Embury	CCA	OPEN

During our November meeting, (November 11, 2025, 6PM, PGICA) the membership will be voting to approve this Board and seek nominations for the floor to fill open positions.

Our speaker for this month will be Randy Douet, GMA and Prior FC President, will be speaking on catching Sea Trout, our FOM for December. We look forward to his insights and expertise.

Tight lines and see you at the Elk's

Next Meeting: Tuesday November 11, 6:00 to 7:00 p.m. at the PGICA Clubhouse Auditorium,
followed by social time with drinks and snacks.

FISHING REPORT For OCTOBER

By: FRED DEMELLA

Offshore:

King Mackerel have shown up in nearshore Gulf waters. Some have even been caught in the Harbor! Reports include multiple fish in the 30 inch range. Best baits include spoons and hard baits trolled. Wire rigged ballyhoo will also produce. A wire bite leader is a must! Consider extending the length of the bite leader as the Kings can be quite aggressive and have even attacked planer boards and in-line sinkers. When trolling consider offering a cedar plug; there could be Blackfin Tuna or Bonita in the mix. There will almost certainly be plenty of Spanish Mackerel around too. Dangling live bait, especially blue runners, can also be productive for Kings.

Familiarize yourself with the subtle differences between the Spanish and the Kings. This is important as the size and bag limits are different. Spanish are 12 inches, 15 fish; Kings are 24 inches; 3 fish. Length is measured as a fork measurement. King Mackerel grow a lot bigger than their Spanish relatives. However, before they mature, juvenile Kingfish are often very similar in size to grown Spanish Mackerel. Also, Spanish Mackerel have three rows of elliptical yellow spots dotting the sides of their bodies. King Mackerel don't, at least when they're fully grown. Juvenile Kings, however, boast these very same yellow spots. When they mature, the spots on King Mackerel either lose their color or fade into a leopard-like pattern.

For all their similarities, there are a couple of key features that differentiate King Mackerel vs. Spanish Mackerel. These are:

- The lateral line on a King Mackerel drops sharply near the first dorsal fin. On a Spanish Mackerel, this line slopes down much more evenly.
- The first dorsal fin on a King Mackerel is lightly-colored across its length. On a Spanish Mackerel, the front end of the first dorsal is distinctively black.

These fish are fun to catch and taste great either fresh or smoked. Go out and get some!

Remember to have a descending plan for those fish that don't meet the minimum size limit for harvest. The best method is to actually descend the fish using one of the descending devices. By law, you must have this equipment on board and use it. Also note that grouper are not the only fish that require descending, Red and Lane Snapper caught at depth will also experience barotrauma.

NOTE: Greater Amberjack has been closed for harvest for the remainder of 2025.

FISHING REPORT For OCTOBER

(Fish Report, continued)

Inshore:

The recent weather change is not only comfortable, but is causing fish to move. The tarpon while still available are on the move. This angler witnessed a “free jumper” in Boca Pass recently.

Snook is open for harvest through November in Charlotte Harbor. If you haven't eaten Snook this is your chance. The hard part is getting one in the slot (28-33 inches). The limit is one fish. The Snook have been cooperative, hitting live bait and artificial lures. Expect the best fish on or near structure and under cover of mangroves or docks.

Redfish are still being caught. Target Reds or near mangroves using live bait, cut bait or lures. Red Drum are also good table fare. The slot for these is 18-27 inches, one fish (max of 2 fish per boat).

Spanish Mackerel are also available, often mixed with Jack Crevalle. Some nice catches are still available with points fish being caught. Locate schools with bird/bait activity and/or by fishing structure. Trolling small spoons can make for some good catching.

Fish of the Month For NOVEMBER

Location, Description, Tips, Tackle and Bait

MANGROVE SNAPPER

Identification:

- Dark brown or gray in color, with red-orange spots in bars along the sides
- Two large canine teeth near front of upper jaw
- Anchor-shaped vomerine tooth patch
- Dorsal fins with dark or reddish borders
- Young have dark stripe from snout, through eye, to upper edge of gill cover

Locations/Behavior:

- Found near structure such as reefs, mangroves, docks, and seagrass.
- Bigger snapper found on off-shore/near-shore reefs and hard bottom
- Eat a variety of bait: shrimp, soft plastics, trolling lures, fish bites, white bait, etc. Larger mangrove snapper off-shore/near-shore take live bait, squid, shrimp (love cigar minnows).
- The bite is hard and fast. They are aggressive eaters and swimmers.
- Spawn June – August

Technique:

- Set the hook quick; otherwise, your bait will be stolen
- Cast at docks/pilings during medium and high tides. Be ready for them to bite the bait is falling.
- During lower tides they often are a few feet from the dock or pilings.

Gear/rigging:

- In-shore - light gear, smaller hook or jighead. 10-15 lb braid and 10 – 15 lb leader.
- Off-shore/Near-shore – “grouper set up” or other heavier gear.

Interesting Tidbits

So glad to have many of our seasonal anglers returning which meant our total submissions was double the amount from the previous month. The fish of the month, Redfish, remained rather elusive with only 3 reported catches. Seatrout and Spanish Mackerel were regular submissions with the toothy critters up to 25" fork length. Cobia showed up in the harbor and provided exhausting fun for those lucky anglers on the water who found them schooled up, the largest reported at 47" fork length. A pleasantly surprising number of King Mackerel were reported by several anglers, in fact, there have not been this many Kings reported in one month for many years. While none reported were smokers, the largest was a 32" fork length species. **Mark Cummins became the 47th angler in the Club's history to achieve the coveted Master Angler classification – Congratulations!** We also welcome first submissions by new Club members **Carlos Avila** and **David Morgan**

For those of you looking forward to chasing American Red Snapper, the fall season will include the following dates: Nov. 11 (Veterans Day); Nov. 14-16; Nov. 21-23; Nov. 27-30 (Thanksgiving weekend); Dec. 5-7; Dec. 12-14; Dec. 19-21; Dec. 25-28 (Christmas weekend).

Membership Report For October — 2025

We are gaining new members over the summer and fall (4 last week), and we see an increase as the snow birds return. Bill Muir, Lisa Ross, and Lyle Ross manned the Fishing club booth at the recent PGICA new members open house. In a couple of hours 3 new members promised to join and 3 members paid.. The member benefits from the club tournaments and Ladder of Achievement and fishing knowledge gained from the monthly technical meetings and social gatherings.

The household cost is \$30 per year and membership has benefits, including: tournaments, Ladder of Achievement, fishing contests, great social activities and education at our general meetings.

If you get a notice that your Fishing Club membership has dropped and you think that might be an error, please contact me by email or phone.

About
The Icehouse

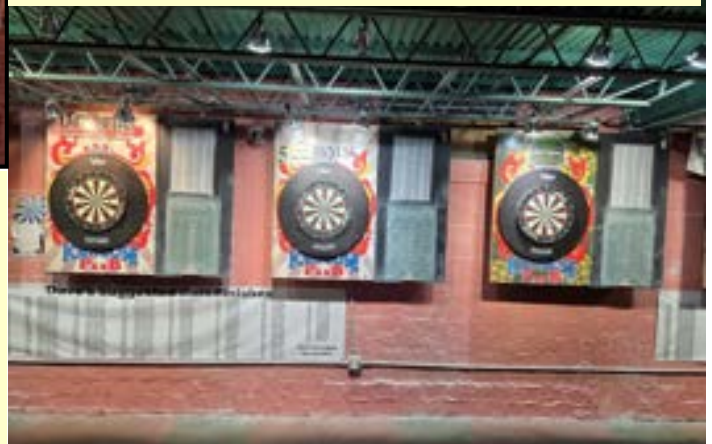

Built in the 1890s, the structure was used as an ice plant for the fishing industry. Hurricane Charley all but destroyed the building when it tore the roof off and the south wall collapsed, but the building's owner's refused to demolish this South Florida landmark pledging to rebuild it and-they-did.

If an English pub-style meal is what you crave, then the Ice House Pub should be your dining destination, with a full British themed menu of such staples as Fish 'n Chips, Cottage Pie, Bangers and Mash and the American favorites Cheese Burgers, Steak Sandwiches and Giant Salads.
