

Isles Trophy Race Rules

(Revised 6/16/26)

Who

Limited to members of the PGI Fishing Club.

General Rules

- Eligible species are:

1. Amberjack
2. Black Drum
3. Cobia
4. Grouper
5. King Mackerel
6. Redfish
7. Sheepshead
8. Snook
9. Spanish Mackerel
10. Spotted Seatrout

- Fish caught out of season are eligible for prizes but must be returned to the water after a photo is taken. Goliath grouper are not eligible entries and should be released immediately.

- To be eligible, fish must be hooked and fought by the same member, without assistance from others. Assistance can only be provided by others in landing or boating a fish, including netting, gaffing and/or touching the leader, as appropriate, given the species, season and all applicable Federal and State regulations. For example, a fish hooked by an individual and passed on to another person to fight is not eligible for this contest, nor is a fish that is fought by more than one individual. A fish that is hooked while the rod is in a rod holder can only be claimed as eligible under this contest by the person removing the rod from the rod holder if that person also brings the fish to the boat, pier or shore for landing or boating it. If the rod is removed from the rod holder by one person and passed on to another person, that fish is not considered eligible for this contest regardless of the time each person possesses the rod.
- All entries must be caught in local waters that are accessible to the general public and are within a 50 nautical mile radius of Charlotte Harbor.
- Winning entries will be based on total length, measured in a flat straight line from the nose to the end of the pinched tail, except for amberjack, cobia, king mackerel and Spanish mackerel, which are to be measured in a flat straight line from the nose to the fork of the tail (fork length).
- The length of an eligible fish shall be measured to the closest ½ inch. Estimated lengths of partial fish are not acceptable.
- Your Club encourages CPR (catch, photograph, and release).
- Fish caught when using any paid Charter Captains or paid Guides may not be used for this contest or Club records.

When

The Isles Trophy Race will run from January 1st through December 31st of a calendar year.

Prizes

- There will be one male and one female winner. Each winner is the angler that catches the longest fish compared to the existing male and female Club records for any of the eligible species. Example – if the current men's club record for redfish is 42.0" and a 38.0" redfish is boated and entered into the Race by a male angler, it

would equal 90.48% of the existing record and, therefore, receive 90.48 “points”. The highest male and female point earners during the year among the ten eligible species will become the winners.

- Each winner will be presented with a “traveling” trophy at the following year's first Club meeting, which they will retain for one year. Updates on the Isles Trophy Race leaders will be given at the monthly meetings, and current standings will be listed in the Club's Newsletter. In the case of a tie, the angler reporting the winning fish earlier in the year will hold the trophy for the first six months of the year and then present it to the second angler for the remainder of the year.

Recording/Reporting Fish

- A digital photograph in jpeg format of you with your face and the fish in the same photo, identified with your last and first name, length of fish, fish species and date caught, attached to your email, will be your entry form (honor system must prevail). The identifiable face of the angler needs to be in the photo with the entire fish. In the case of Amberjack, Cobia, Spanish and King Mackerel, lengths must be reported as fork length measurement in the declaration.
- All entries must be turned in within three weeks of the date the fish is caught. Any entry received after three weeks from the date of catch will not be eligible. Furthermore, any fish caught within the last 3 weeks of a calendar year must be received by the Club no later than January 1 of the following calendar year.
- Your submittal is now your entry form for all club fishing events (Master Angler Tournament, Ladder of Angling Achievement Program, Fish of the Month Contest, and Isles Trophy Race). Since paid Charter Captains or paid Guides may only be used for the Ladder of Angling Achievement Program, fish caught with paid Captains/Guides must be identified as such when submitting an entry. Also, if your entry was not caught in accordance with the General Rules for determining eligibility under this contest, please state that in your submittal as well. Under such circumstances, your submittal will only be considered for your Ladder of Angling Achievement.
- Eligibility for each program will be determined by the Club's appointed Fishing Events Record Keeper and Director. Their decision is final.
- All submittals must be emailed to the Club at fishphotos@pgifishingclub.org
